

## VOTERS GO TO THE POLLS MONDAY

### A Plea For The Aged People, For Business and Those Who Have Jobs

W. Lee O'Daniel broadcasting Sunday morning from the governor's mansion at Austin, told the people of Texas plainly and truly of the failure of the Legislature to provide revenues for expanding the benefits of the old age assistance law.

The difference of opinion in the Legislature between the governor and the members of both House and Senate is important only as it relates to the failure of the Legislature to provide for payments to the old people of Texas pledged by all candidates and demanded by the platform of the party. The sincerity of Governor O'Daniel should not be questioned. Rather should we all face the facts as they exist and meet the situation to the best of our ability. Let us hope the near future will find both the governor and the Legislature working harmoniously to solve this important question.

Until such time as this question is finally and adequately solved it is vitally necessary and imperative that we protect and defend those sources of revenue in Texas which are now paying more than 50 per cent of the money received and paid out as the State's part to 112,000 dependent old people. In Milam county alone some 1800 aged people are receiving pension checks. More than one-half of the money thus paid is received from a tax on the sale of alcoholic beverages. This fact can be ascertained from the report of the State Auditor. It is not necessary to say that if Texas should vote to prohibit the regulation, taxation and sale of these beverages that the plight of the old people would be a grave one.

The people of Milam County will vote on Monday, April 10 on the question of whether alcoholic beverages will be prohibited from sale in this county or whether these beverages shall continue to be legalized, regulated and taxed. It is more than interesting to note that over 250 people in Milam County are employed by retailers and distributors of these products. It would be an economic tragedy to trifle with the security of these people and return to the horrors and social dissolution of prohibition as we knew it under the eighteenth amendment. We can think of nothing more vital at this time than to provide employment for people. One of the nation's most pressing problems is to maintain conditions that will produce jobs. We are thinking of the tremendous investment in equipment by these retailers and distributors; we are thinking of the taxes that are paid as the result of recapturing sobriety and handling the important question thus involved. We look back a few years to a dark period in the history of the country. We remember conditions as they existed in Milam county and when we make a comparison with the present method of handling this question we cannot resist the urge to appeal with all our sincerity and conviction to the people of this county to reject the proposition on next Monday to return this county to the dry column.

We are thinking of the plight of business and how slow has been the progress we have made. We take the facts as they relate to repeal of national prohibition and marshal the benefits that have resulted to business and we are convinced that no single policy of the Roosevelt administration has done more to increase employment and to pay the expenses of the government than the legalization of alcoholic beverages. Beer alone pays in taxes \$1,000,000 per day. The total contribution of the beverage in taxes will approximately around One Billion per year.

At this time when every community in Milam county is vitally concerned with maintaining its trade income, it would be a serious blow to each of them and to the county as a whole if the prohibition election should succeed. It would mean that Milam county would be entirely surrounded by counties that have legalized the sale of these beverages and it would be difficult to estimate the toll that would be taken to these counties if we should fail to protect our own interests.

In Texas alone in 1938 there was collected more than five and one-half million dollars in taxes on alcoholic beverages. In Milam county alone figures from four out of seven wholesale beer distributors show that a total of more than \$42,000 in taxes were paid to the state and nation. There is paid back to the county as a result of these taxes a sum much greater but if we should fail to protect our interests by declining to resist the effort now being made to restore Milam county to prohibition we would be making a contribution to suffering and defeat for the aged people of our county as well as the State of Texas.

No more important election has been held in this county in many years. It is your duty to vote. Business men and tax payers analyzing the facts involved in this election have made a sensible, convincing appeal to maintain the present status of the sale of these beverages and to defend the county against the return of an unlicensed and unregulated traffic. Without criticism for the convictions of any and in the belief that prohibition would be harmful to Milam county, we urge upon all those who agree that they set aside as a special, important duty for Monday, April 10 to go to the polls and cast a ballot for what we now have and in defense of the aged people of Texas.

#### Band Benefit

The Lions Club of Cameron announced late Thursday that Harry Gambill with his trained animals will stage a benefit show at the Yoe High School athletic field on Friday night, April 14. The proceeds will be given to the band for its coming trip to Abilene for the national contest. Band Parents will assist the Lions in staging the performance.

#### Easter Mass at St. Michael's Burlington

The Easter Mass at St. Michael's will be at 7 o'clock. Elaborate preparations are being made by the Adult choir under the direction of Hugh Martin to celebrate the great feast with an appropriate program of Church music.

While the celebrant sprinkles the (Turn to page 8)

#### To The Public

The plant of the Cameron Herald will be closed Friday and Saturday. The plant is being moved to its new location. The management regrets that it will be unable to conduct a normal business and invites the patrons of the paper to visit us in our new home next week. The Herald plant is being moved to the Fahrendorf building adjoining the M. G. Cox law offices facing the north side of the court house square.

#### J. D. BASKIN GETS STATE APPOINTMENT

J. D. Baskin, native son of Cameron, world war veteran and close personal friend of Col. Earnest O. Thompson of the Texas Railroad Commission, will leave Cameron within a short time to live in Austin where he will work with the department.

Mr. Baskin has been tendered by Col. Thompson and has accepted a responsible place with the Oil and Gas division of the Commission. The tender came to him unsolicited. Mr. Baskin told the Herald he was seated in a hotel lobby in Austin when the Colonel came in and immediately informed him his services were needed.

Friends in Cameron will regret to know that Mr. and Mrs. Baskin and their family are to move away. Mr. Baskin has friends throughout the county who will also regret his departure, but are happy to know his abilities have been recognized and feel that the state has gained a valued employee and the public service will benefit by his acceptance.

#### Band Leader Guest Of Rotary Club

Francis Cox, director of the Cameron band, was guest speaker Wednesday before the Cameron Rotary Club, and was paid a special tribute by the Rotarians for his part in the recent success of the band at Huntsville.

Mr. Cox explained the band contest and also discussed the benefits of music taught in the public schools and the advantages it offers to students who go away to college, primarily stimulating their interests in the finer things of life.

Cameron band was the most highly rated Class B. Band in the State of Texas and will go to the national contest to be held in Abilene. At the conclusion of his address Dr. Swift, president of the club, paid Mr. Cox and the band a special tribute of praise for the favorable publicity it has brought to the city and told the director that the citizens of Cameron were unanimous in their appreciation of his contribution to the success of the band and for the part he has played in teaching the students.

#### Winfield Store is Easter Parade Center With Big Spring Sale

The Easter merchandising campaign finds the Winfield Dry Goods Company in Cameron doing its share in a big way to tell the world that the Friendly City is the place to buy.

During the remainder of the week bargains seldom offered along commercial row will obtain throughout this big store. The Easter Parade sale started last week and has continued all this week, to end Saturday.

Buyers in the trade territory, people in Cameron and in the rural communities will want to attend this sale. The markets of the east have been combed for bright new merchandise for this sale which heralds the opening of spring. Easter Sunday is on April 9. It is a time when the thoughts of many turn to the new things to wear.

Winfield Brothers store in Cameron invites you in to see the many new things for Spring and to share in the savings that are in effect during today, Friday and Saturday. The store will be open until late Saturday evening to give shoppers time to complete their final purchases for the big dress up at Easter.

#### BAND LEADS STATE MEET

The Yoe High School band returned late Saturday night from Huntsville, where it participated in the State band contest, Region 5.

The band returns with the best record ever made by the group.

With total entries of the band itself, ten soloists and four ensembles, the results were as follows: Band, first division in concert playing, sight reading and marching; soloists, eight made first division, and two made second division; ensembles, two made first division, and two made second division. All first division awards mean qualification to the National Band Contest, to be held soon. Among the first division soloists is included David Wade, a National Contest first division winner of last year, in drum major's baton twirling.

The soloists and ensembles are as follows:

First Division: Doris Newton, flute soloist; Josephine Newton, oboe soloist; Pat Baskin, trombone soloist; Jim Baskin, baritone soloist; Grady Baskin, cornet soloist; Sam Bill Law, bass soloist; Willard Skelton, trombone soloist; David Wade, twirling.

Woodwind quintet, members Doris Newton, Josephine Newton, Maxine Akers, Inez Slaughter, Julian Baskin; Cornet trio members, Grady Baskin, Lucille Stedman, Martha Frances Brogdon.

Second Division: Maxine Akers, clarinet solo; D. L. Lindsey, clarinet solo; Clarinet quartet members, Roy Dunlap, D. L. Lindsey, August Kunz, Harold Buffington; Brass sextet members, Tom Hobson, Stone Garner, Dick Slocomb, Willard Skelton, Jim Baskin, Bruce Laird.

#### TEST LABORATORY FOR DRIVERS HERE APRIL 12

Motorists of this area will have the opportunity of determining to their own satisfaction their driving ability Wednesday, April 12 when the Department of Public Safety, brings to this city its portable courtesy driver test laboratory, containing the most modern scientific equipment, designed especially for this purpose.

The courtesy caravan which is on a statewide tour, sponsored directly by the Drivers' License Division will be here from 9 to 5 p. m. Every motorist in this section has been invited to take the free test which is both entertaining and highly educational. Each one taking the test is presented with a score card.

Two machines are being featured. The Reactometer shows the motorist the time required to bring his motor vehicle to a stop when unexpected danger looms ahead. Those in charge of the exhibit point out that it proves the fallacy of the old belief that "you can stop on a dime." The test requires only fifteen seconds.

The second test, on the Steerometer makes it possible for the operator to discover how difficult it is to keep the vehicle on the right side of the highway while presumably rounding a curve. This test requires sixty seconds. Both machines have been loaned the Department by the Aetna Life Insurance Company.

Two patrolmen will accompany the (Turn to page 8)

## PENSIONS, JOBS AND BUSINESS INVOLVED

For the second time within a week voters of Milam county will go to the polls. The second balloting will be the special prohibition election to be held on Monday, April 10.

Considerable interest is attached to the prohibition election because of the failure of the Legislature to raise money for old age pensions. Recently the governor approved a bill to borrow almost a million dollars to complete payments of the old age pension for February and March. Inasmuch as more than fifty per cent of the money now received for old age pensions comes from taxes on beverages, there was general feeling among the people of the county that it will be unwise to vote against the sale of these beverages because more than forty thousand dollars per year is paid by retailers and distributors in taxes in Milam county.

The election is to be held on Monday, April 10 and voters are being

urged to go to the polls in large numbers to decide the issue. The election supplies have been sent out to Milam county's fifty voting precincts and all possible preparations had been made by county officials to handle the election. The vote is expected to be light in comparison with that of the primary but interest was increasing. Business men generally were active to keep legal the sale of these beverages, believing that in the event the county goes dry much business will be taken to adjoining counties as all of these counties have legalized sale of beverages.

It was pointed out that more than 250 people are employed in the sale and distribution of these products and that a great deal of money has been invested in equipment and these people would be thrown out of employment and business men would suffer greatly unless the county is permitted to continue as at present.

#### CITY WILL CLOSE FOR SERVICE FRIDAY

Business houses in Cameron will be closed Friday for the special union Easter service in observance of Good Friday to be held at the Methodist Church.

Mayor Charles C. Smith issued the following proclamation:

"In accordance with the custom which has prevailed in our city for the past several years and in keeping with proper observance of the Easter season, I, Chas. C. Smith, Mayor of the City of Cameron do hereby request that business be suspended and that all business activity cease as far as possible between the hours of 12 noon and 3 p. m., Friday, April 7th, 1939, in order that all who wish may have the opportunity of attending Easter services of the churches of Cameron who in co-operation will hold a three hour Easter service at the First Methodist Church of our city."

CHAS. C. SMITH,  
Mayor, City of Cameron.

#### Takes Place With Chevrolet Company

Loran Pierce of Navasota has accepted a position with the sales department of the Grabein Chevrolet Company. Before moving to Cameron he was with the Texas Company in Navasota.

Mr. Pierce is a son of Louis S. Pierce of Navasota who formerly owned a dry goods store in Cameron and is also a brother of Sonny Pierce formerly with the Bradbury store. Announcement of Mr. Pierce's employment was made by Mr. Grabein.

#### NO CHANGES MADE IN CITY OFFICIALS

The city election on Tuesday resulted in no changes being made in the members of the City Council.

Aug. Horstmann received the largest number of votes with a total of 342. Sam McDermott and Bob Terry received 333 and 331 respectively. Fred Jackson and Joe Bass the other two candidates received 119 and 122 votes in that order.

Horstmann, chairman of the Street Commission, McDermott, chairman of the Finance Committee, and Terry, Chairman of the Sanitary Committee, have all been affiliated with the administration of the affairs of the city for the past several years. The re-elected members to the Board of Alderman will hold office for a two year term.

Albert Matula was election manager and was assisted by J. E. Flinn, R. S. Wiley and Miss Jessie Lowenstein.

#### \$6,413 PAID WPA WORKERS IN MARCH

An average of 80 workers were employed in Milam county WPA sewing rooms during the first three months of this year. 8,588 yards of material furnished by the federal government was made into 4095 garments by these workers. Salaries for this work amounted to \$6,413.18.

Milam county furnishes rent, utilities, thread, buttons and incidentals and the government furnishes salaries and materials.

## Old Standpipe Gets "Face Lifted;" A Bit of History Revealed

The standpipe at Cameron which since it was erected in 1895 has been painted black, is this week receiving a bright new finish in aluminum. Workmen of a Dallas service company started painting the huge water tower on last Thursday and when they have finished it will be surfaced with two coats of aluminum paint.

At regular periods the Community Public Service Company, owners of the water works system here, has the standpipe drained and cleaned on the inside and repaired on the outside. Through the Chamber of Commerce, citizens of Cameron recently requested the color of the tower be changed from black to aluminum and the company graciously complied with their wishes.

The story behind Cameron's water supply is an interesting one, the

story of a service that has grown from the most primitive stage to a point that an adequate supply of pure water so necessary to a demanding citizenship, is available at all times.

The tower is 115 feet high and has a capacity of 175,000 gallons of water. The first supply of city water was made under the auspices of Lawrence and Henderson, the original owners of the water works.

According to historical sketches from files and sources, in the year 1895, at the time when A. J. Lewis was mayor of this city, citizens of Cameron donated money for improvements in the water system. Mr. Lawrence worked with a state official in making a water survey to ascertain whether or not shallow (Turn to page 7)

### "WHO'S CRAZY?"

Brazil raises coffee but cannot sell it at a profit. Last year 8,004,000 bags were burned in order to stabilize the price. Thru February 15th of this year 460,000 more bags have been burned. Yet German citizens are being rationed coffee because they can't get as much as they desire to drink, seems silly, does it not?

Cotton farmers complain about lost foreign markets while the government holds 11,165,000 bales of cotton off the market in order to keep prices high and also use as a threat to force the cotton growers to reduce acreage in order to prevent a further accumulation. And recently British spinners visited Washington to beg for the release of some 11,165,000 bales so that they can keep their mills running!

The above facts certainly make the

price-raising scheme and the international trade barriers look insanely ridiculous. Men who desire to work are forced on relief thru artificial scarcity of jobs.

### THE ROTARY SPIRIT

Red roses for the living, and hand-clasps warm and true,  
A heart that's tuned to giving, and strength to dare and do;  
The sound of honest laughter, the joy of honest toil;  
For those that follow after, to leave a finer soil.  
All this has been and ever will be the Rotary plan,  
A man's sincere endeavor to serve his fellowman.

A little less self seeking, a little more for men,  
Less bitter in our speaking, more kindly with the pen;  
A little less of swerving from paths of truth and right,  
A little more of serving and less of dollar might.  
More peaceful with our neighbors, and stauncher to our friends.  
For this all Rotary labors, on this its hope depends.

To smooth the way for others, to make of life the most;  
To make the phrase "our brother" mean more than idle boast;  
To praise sincere endeavor, when praise will spur it on,  
Withholding kind words never until the friend is gone;  
This is the Rotary spirit, this is the Rotary dream,  
God grant that we may near it before we cross the stream.  
—Edgar A. Guest.

A football is of no value unless kicked. A little "kicking around" generally improves the moral fiber and stability of a man.

The time required to attend a district conference is short. The expense entailed in attending a district conference is small. The happiness it gives the district governor to have a large attendance is great. He deserves that reward for the generous devotion of his time and

thought to the clubs of his district during the year. The joy of meeting and fraternizing with Rotarians, from the other cities of the district is exquisite, and the thrill of participating in the various elements of the district conference is one that comes to even those who have been habitual attenders.

### Program For WEDNESDAY

Address by  
**FRANCIS COX**  
Director of Yoe High School  
Band.

Don't forget to listen in on those "Two Old Radio Cronies" Lum and Abner, who have discovered Rotary, and, on Wednesday evening, April 19th, from Hollywood, they are going to discuss Rotary for the benefit of their radio listeners. It is to be hoped that tens of thousands of Rotarians and their friends will tune in on the broadcast, and we may be sure that the artists will be glad to receive comments from Rotarians after they have listened to the broadcast.

The baseball percentage game has certainly got started in a big way, when last Wednesday, Stanley Swift's team was one run ahead of P. W. Davis' team, until P. W. put in a pinch hitter, Donald Weir tied the score when he went to Hearn, last Thursday, for the winning hit which tied the score. What a close game, let's see how the next inning will be this week.

Last Wednesday, we had another 100 per cent meeting, the second such a meeting since the organization of the Cameron Rotary Club and let me assure you your secretary, certainly is proud to send his monthly report to the District Governor, whenever he can show a 100 percent meeting. Let's try again.

Quarterly Conference of the Methodist Church was held at the Maysfield church on Sunday. Rev. Aln Reed of Minerva had charge. Among those to attend from Cameron were Mr. and Mrs. W. A. Bonds.

### WASHINGTON MONUMENT

Located on the Mall, Washington, D. C., this marble obelisk stands 555 ft. 5 1/4 in. high, is capped by a pyramid of solid aluminum. Started in 1848 with funds from popular subscription, progress was slow until 1854, when a block of marble given by the Pope was stolen. Indignation at this incident halted construction until 1876, when it was resumed by Army engineers at government expense. Its cost of \$1,300,000 was contributed by States, foreign nations, cities and various organizations in world-wide honor to the "Father of our Country."

## Planting Furrows . . .

Each year at this time there is renewal of planting furrows which means that our people are happy in the engagement of farming. For centuries the American people have been farmers and business men. We hope nothing ever occurs to stop that program.

This bank's friendly interest in those who plant and produce from the soil has been one of its underlying business principles through all the years it has operated. We invite the farmers and the business men to take advantage of the facilities of this fine bank and know the advantages such a connection means to the success of their business.

This bank is a friendly bank, whether the transaction is large or small and by this policy we have made many friends through the years.

**Young Democrats Organize Here**

A Young Democratic Club is being organized here, it was announced Wednesday by W. A. Morrison, who said that Mrs. Pauline Stephens of Waco, executive committee woman from this Senatorial and Congressional District had asked him to help her form a club here.

Mrs. Stephens was accompanied by Mr. Wilmer Simms, chairman of the organization and membership committee of the Young Democratic Clubs of Texas, when she came to Cameron in the interest of a club here.

Mr. Morrison said he had learned since Mrs. Stephens' visit that there had been such a club in Milam county in the years past but she did not inform him of this matter and asked him to proceed as if there had not been one.

Anyone is eligible to become a member but only those between the ages of 21 and 40 may hold office. At the present time the following have agreed to become members: J. L. Callaway, Narvie Caperton, H. G. Haraway, Pauline Starnes, W. A. Morrison, Charles C. Smith, Jr., of Cameron, Clarence Hopkins of Buckholts, Eloise Laurence of Thorndale and Alfred Stoebner of Burlington.

Mr. Morrison said if he understood the purpose of this organization, it was to further the interest and the welfare of the Democratic party as a whole and to take no issue in the question of the policies of the present administration. Officers for the club have not as yet been elected.

**Trophies to be Awarded Winners In League Events**

The All-round Championships in each division of schools participating in the Interscholastic League events were announced this week by Guy T. Newton, county superintendent.

Beautiful and appropriate trophies will be awarded to the winners in each division. The Coca Cola Bottling Company will award the trophies to Cameron and Sharp, winners in Class A and B respectively. Guy T. Newton will award to Yarrellton the trophy for rural schools and Cameron Public Schools will present Ada Henderson School with a trophy as winner in the Ward division.

**To Query Women All Over South**

Touring Reporters have now asked over 1,200 women and girls of leading Southern Cities the now famous question: "Were you helped by CARDUI?"

Averaging all replies so far shows that 93 out of every 100 users questioned declared CARDUI benefited them!

Users by thousands are eager to tell how CARDUI has given them appetite; helped them gain strength; has thus relieved them of the symptoms of functional dysmenorrhea due to malnutrition. Many also say that, when symptoms indicate the need, CARDUI in larger doses helps "at the time" to soothe pain.

**For Installing Clock Court Opens Bids**

Commissioners' Court in session Wednesday afternoon opened bids for the repairing and installing of the court house clock. It was found that the International Clock Company of Dallas had submitted the lowest bid but the contract can not be awarded until the bid is approved by the federal authorities at Fort Worth. Judge Jeff T. Kemp said it would be approximately forty-five days before the contract would be officially let.

The court on Wednesday also gave a contract for a total of \$1135 repair work on the Brushy Creek bridge on the Rockdale highway.

Notices of the prohibition election to be held on next Monday were being posted over the county this week by Homer Nabours, county clerk.

### His Life Story

Reproduced from  
The Dallas News

#### The Carpetbaggers at the Alamo.

The professional politicians got so desperate in the closing weeks of the campaign that they left unsaid nothing that they thought would stem the ever-mounting tide of O'Daniel votes. As I have said, I ignored these personal attacks, but when one slur was on the good people of my native State of Ohio, I at last made an answer. It was:

Friends of radioland and citizens of Texas, the thing I am going to discuss with you now is a matter which I regret has been brought into this campaign. Yet it was not I who started it. It has come to my attention that some of the other candidates have stooped beneath the dignity that should accompany any candidate for the high office of Governor and resorted to an attack on me. They and some of their friends and cohorts are whispering that I am a carpet-bagger from Ohio.

Inasmuch as I am only an humble citizen and have never yet brightened the pages of history, I shall say nothing in my own defense. But the things that I shall say now are intended to remind these gentlemen of some Texas history, which they evidently have failed to learn. And in my own humble way I wish to defend the honored and hallowed names of some illustrious sons of my native Ohio, who served Texas well, even to the laying down of their lives for Texas independence.

#### Ohioans Aid Texas

The names of Ohioans flow with luster through all the pages of early Texas history. When Texas was fighting for her independence, Capt. George H. Burroughs brought a company of fighting men, from Zanesville Ohio. One of the most colorful figures in all Texas history is Gen. Sidney Sherman, who came from Cincinnati—a businessman, if you please, who sold his cotton bagging plants at Newport, Ky., to raise funds to equip fifty volunteers for Texas' cause. Many of his recruits came

from Ohio. While General Sherman commanded the Second Regiment at San Jacinto, his first aid, Capt. William Wood of Cincinnati, became a company commander.

The only flag in the Texas ranks during the battle of San Jacinto was carried by General Sherman's command. After the revolution was won he recruited soldiers in the United States for the regular army of the Republic of Texas. He represented Harris County in the Congress of Texas, rebuilt Harrisburg after its destruction by Santa Anna, and promoted the first railroad in Texas. During the Civil War he built the defenses of Galveston, and his eldest son, Sidney Sherman, Jr., was killed in the recapture of Galveston from the Federals.

#### Immortals in Alamo.

Three of the immortals who died in the Alamo for Texas freedom were from Ohio. Their names are written not alone in marble, but in the hearts of all true Texans. They are Robert Musselman, William B. Harrison and James M. Rose.

Fourteen men from Ohio rose to imperishable fame at the battle of San Jacinto. The first Postmaster General of Texas was Robert Barr of Ohio. James W. Robinson of Ohio became the first Lieutenant Governor of Texas after he had been marched with others in chains to Mexico City. He, too, fought at San Jacinto and was a member of the Congress of Texas.

Major Walter P. Lane, who brought the bones of the victims of the Mier Expedition out of Mexico, was an Ohioan. He fought at San Jacinto and was a member of Jack Hay's famous Texas Rangers, fighting in the war against Mexico. I am sure if Major Lane were running for Governor of Texas today some of these gentlemen would charge him with being a carpetbagger, too, even though he went into the Confederate Army and fought four years for the South.

I could go on and name more men from my native state who, like most everybody, were born where their mother chanced to be at the particular time but who, after they had reached their majority, selected Texas through their own free will as their home.

#### Twin Sisters Provided.

And last, but not least, let me remind you that the citizens of Cincinnati, businessmen and women, if you please, staged a mass meeting in that Ohio city on Nov. 17, 1835, and set afoot a movement to finance the purchase of two brass cannons, which were later presented to General Houston's army. These memorable cannons arrived just a few days before the battle of San Jacinto. They have gone down into our glorious history as the immortal Twin Sisters. They were turned loose on Santa Anna's army with slugs made from horse shoes—the idea of a practical businessman—when no other ammunition was available. And the Twin Sisters from Ohio proved an important factor in winning that engagement.

And so, my friends, inasmuch as I am, of course, no carpetbagger but am merely called that name by the illustrious gentlemen who are my opponents in this race, I have taken time today to defend the names of those heroes who were born in the same state as I. There I leave the

matter before the bar of public opinion.

#### For Independent Merchant....

I also felt it necessary in the closing period of the campaign to stress again my belief that the independent merchant should be given a fair chance in the modern world. I explained this in terms of the independent grocery store. I said:

The independent grocery stores of Texas have been one of the greatest friends of our citizens for many years. When farmers and laborers could not think of getting credit from the banks, when they could not borrow from their friends, when their jobs were gone and they had no money, the independent groceryman gave them credit so that their families would not starve. I think the state should do all it can to protect the independent merchant. I am in favor of legislation that will protect the independent groceryman.

#### Tour Nears End.

By this time, with election just around the corner, many folks believed the race was won, particularly since straw vote after straw vote indicated that the candidate of the common people was far in the lead.

Our tour of beautiful Texas was nearing an end. We had gotten into every section from the Panhandle to the Rio Grande Valley and from the piney woods of East Texas to the

sheep and goat country of West Texas. Only El Paso and vicinity was yet to be visited. Still there were scores of other places we hoped to include on the itinerary and these were set down for the run-off campaign—if there should be a run-off campaign. Personally, I would be sorry if our campaigning would close

on July 23, because the Hillbilly Boys, Molly and I were having a grand time and enjoying every minute of it. Next Week—The Windup.

FOR THE BEST KITCHEN TOOLS  
SEE THE GREEN & BOEDEKER STORE  
The Standard of America

## Along Commercial Row

Did a housewife ever have all of the available household utensils and miscellaneous tools she could use? We sincerely doubt it and Green & Boedeker, a business concern that handles all of the modern gadgets so necessary to a smooth running household, calls your attention to a few of the many items that you will need for your spring culinary and gardening duties. This store invites you to drop around and look over a complete line of articles you will really want at these bargain prices.

The Cameron Herald delayed somewhat in getting its plant moved to new location, hopes to be in its new home this week end. There is possibility of future delay as the building to which the plant is to be moved has not yet been fully vacated. The Herald will be located in the Fahrendorf building adjoining the M. G. Cox law offices. This building for the past several years has been occupied by the B. J. Baskin & Sons dry goods and grocery store. This pioneer firm has discontinued its business in Cameron. The Herald has been published at its present location since 1921. Prior to that

## Headache, Bad Breath Tell of More to Come

Just as Paul Revere's famous ride warned of the Redcoats' coming, so Nature's messengers — headaches, biliousness, bad breath—often warn of faulty elimination.

Neglecting these signs may cause a host of constipation's discomforts: sour stomach, belching, no appetite or energy; mental dullness.

It's so easy to wake up your lazy insides. Just take spicy, all vegetable BLACK-DRAUGHT. Its unusual help comes from its principal ingredient—an intestinal tonic-laxative which imparts tone to lazy bowel muscles.

Millions of packages used testify to BLACK-DRAUGHT'S merit. Try it.

time it was located in the Odd Fellows building. In moving to the new location it goes back to the block in Cameron's business district where it was first published under the name of the Centinel. When thus published it was located in a building where now stands the T. S. Henderson building and the Milam County Abstract Company. Later it was moved to the center of the block almost on the same site to be occupied when the plant is moved this week. Considerable disarrangement will result. No business can be transacted during Friday and Saturday as the move is being made.

A big factor in Cameron business these days is Coca Cola, that delightful drink of the nation from Broadway to the hamlet. Fred G. Blake anticipates a big season. His business has shown a decided increase for the past two years. Newspaper advertising figures well in the Coca Cola season. Herald readers will be reading for some time a monthly schedule of Coca Cola ads. The apparent early coming of warm days has caused a stepping up of bottling schedules at the plant. Coca Cola is one of the big business assets of Cameron.

Robert's 5c to \$1 Store, consistent advertisers of high quality merchandise this week announce a special sale of items for Easter. Those who anticipate making Easter morning a happy time for someone will find this store a delightful place to pick out gifts to suit every taste. Mr. Caperton, who recently became proprietor of the store, invites all his friends in to look over the many attractive bargains that are to be found in all of the departments.

Jackson Service Station, Cameron's Humble Dealers, announce a new kind of gasoline manufactured by the Humble Oil & Refining Company now for sale at a new lower price of seventeen cents per gallon. This uniform quality gasoline contains lead and is a better grade of gasoline in the lower priced fields. Customers get the complete service available in Humble Stations with each purchase of Thriftane. Jackson's Service Station invites you to try.

## Egg Marks The Spot, Officer

Patrolman Harold Nickerson of the Detroit Police put his ticket book away when Betty Dane, Wayne University student, explained that her driving with an egg was only part of a sorority initiation stunt. She did it, too, without breaking the egg, by using a Chevrolet, in which vacuum from the motor supplies nearly all the power necessary in shifting gears with the new steering column shift lever.

Thriftane, the new low priced, good quality gasoline.

"The Seven Last Words" a musical program presented at First Methodist Church on Tuesday night by a mixed ensemble of twenty voices from Baylor University, was well attended by the public. Billy Triggs, son of Mr. and Mrs. A. J. Triggs of Cameron, and student of Baylor University was featured on the program.

## Standpipe

(Continued from page 1)

wells would give a sufficient supply or if they would be forced to obtain water from Little River.

It was found that water sufficient in amount for fires and all uses could not be supplied from wells and the Company decided to get the water from the river. At a subsequent meeting of the stockholders, M. M. Kemp was made president and C. W. Lawrence was elected secretary of the company known as the Texas Water Company. J. M. Ralston was then mayor of the city and C. P. Beatty was secretary and treasurer.

During the years the system has been under other managements and the name has been changed from time to time. In 1929 the name was changed from the Texas Water Company to the Texas Water and Utility Company and in 1923 it came into the hands of the Texas-Louisiana Power Company. In 1933 it was taken over by the Community Public Service Company of Fort Worth.

When the water tower was first built, the water was pumped directly from the river into the pipe without any system of filtration. Consequently consumers drew their water in large wash tubs in the late afternoon and let settle over night for a drinking supply for the following day.

When Ben Strum was mayor in 1923 a contract was let for the installation of a pumping station to correct somewhat the impurities of the supply, but it was not until later when J. B. White was mayor that the present system of filtration and purification of the water supply was installed.

At this time samples of the city water are submitted to the State Health Department twice monthly, who have put their stamp of approval on the water but because they have not yet completed their survey of Little River and its tributaries cannot approve the source.

Interesting in connection with the works of the system is the water gauge, the original of which is still in use by the company. A. J. Dossett at that time owner of the Cameron Compress Company, who because of the vital importance of fire protection was interested in the pressure and because the company did not want to invest in the purchase of a pressure gauge at that time. Mr. Dossett bought a gauge. It was installed in the post office building which at that time was located where Dusek Pharmacy is now operating.

Recently the gauge was impaired and the company was preparing to discard it for a new one, but because of public sentiment it was mended and still records the number pressure pounds per foot in twenty-four hours.

A. H. Parton and Ed Parton of Millerton were recent Cameron visitors.

Mr. and Mrs. W. F. Ines were Cameron visitors Saturday.

# Getting Ready for Trade Tour Advance Trip

Plans for the 1500 mile junket during which arrangements for the visit of the Dallas Trade trippers to Cameron were made at the time the official car of the State Fair was turned over to Harry L. Seay, President of the Fair by W. A. Cabeen, Dallas Zone Manager of the Pontiac Division of General Motors. The ad-

vance trip for the 1938 Good Will Tour of the Dallas Wholesale Merchants Association was made in a Pontiac and this is the second consecutive year this car has been chosen as the official car of the State Fair of Texas.

Next to Mr. Cabeen in the picture are Flake Z. Williams, general

chairman of the Trade Trip, and Bob Bourdene, Manager of the Dallas Wholesale Merchants who is directing the tour.

Mr. Bourdene visited the Cameron Chamber of Commerce here April 4, to make arrangements for the train stop here later in April.

and coffee were served. Mrs. P. L. Bergum of Ben Arnold will be hostess at the next meeting on April 13.

Announcement of the marriage at Temple, January 25, 1939, of Harry L. Greenlees and Virginia Fuller, both of Cameron, came as a surprise to their many friends here. The happy event took place at the Baptist parsonage in Temple, conducted by Rev. L. B. Reavis. Mrs. Greenlees is the daughter of Mr. and Mrs. J. M. Fuller of Yarrington. Mr. Greenlees is the son of Mrs. Paul Heintze of Cameron. Their friends are congratulating and wishing them much happiness and prosperity.

## CHRISTIAN SCIENCE SERVICES

"Are Sin, Disease, and Death Real?" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, April 9.

The Golden Text is: "I am the Lord that healeth thee" (Exodus 15:26.)

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Pure religion and undefiled before God and the Father is this. To visit the fatherless and widows in their affliction, and to keep himself unspotted from the world" (James 1:27.)

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Let unselfishness, goodness, mercy, justice, health, holiness, love—the kingdom of heaven—reign within us, and sin, disease and death will diminish until they finally disappeared" (page 248.)

"The Lord Is Risen, He Is Risen Indeed"

Our Church Welcomes You.

Think It Over!

What would Easter mean, if there were no risen Lord? What would eternity hold in store for mankind?

Everlasting death! "But now is Christ risen, and become the first-fruits of them that slept." He, our Risen Lord, says: "I live and ye shall live also." This is Easter Joy!

## CARD OF THANKS

We wish to take this means of expressing our sincere thanks and appreciation to our many friends and neighbors for their many acts of kindness and expressions of sympathy toward us at the recent loss of our loved one. ## Society News

Amid a beautiful setting of spring flowers and rustic cactus beds, a few friends gathered Thursday evening of last week to enjoy a delightful birthday dinner and party, complimenting Judge M. G. Cox. Mrs. Cox assisted by their cousin, Miss Mildred Thornton were co-hostesses to this delightful affair. The beautiful back lawn at the Cox home was chosen by the hostesses for the setting, as spring had arrived and furnished natural flowers, shrubs and greenery for the floral decorations for the happy occasion. After serving a delightful menu the hostesses and honored guest, strolled with their guests over this unusually attractive spot where many plants and rare cactus and shrubs had been planted. Many of them had been gathered by the Cox while on their annual vacation trips in other states, and down in old Mexico. Later forty-two and Chinese Checkers furnished diversion for the evening. Those present beside the Cox family were: Mr. and Mrs. F. G. Blake, Mr. and Mrs. L. C. Wood and son; Dr. and Mrs. S. R. Cotton, Mr. and Mrs. Raymond Haigh and Mr. Niley Smith.

The quilting club met on Tuesday afternoon at the home of Mrs. Turner Cooper of Minerva for a kitchen shower honoring the hostess. The club during the winter months quilted some 60 quilts and are now having kitchen showers honoring members to keep up the enthusiasm in the club. Mrs. Cooper received many useful and beautiful gifts. There were fifteen guests present and a number of interesting games were enjoyed after which the hostess served delectable refreshments of banana cake, cookies and lemonade.

The Forty-two Leisure club met Thursday afternoon at the home Mrs. W. M. Sells. The meeting opened with roll call and reading of minutes. At the conclusion of a number of games of forty-two Mrs. George Schiller held high, Mrs. P. L. Bergum, second high, Mrs. John Matyastik, low score. Table cuts fell to Mesdames Slama, George Schiller and Herman Becker. Mrs. Sells used a beautiful color scheme, white yellow and blue throughout the party. Miss Lucile Bell was a visitor for the occasion. A delectable refreshment plate of sandwiches, doughnuts

# Some Facts and Figures With Reference to the Prohibition Election In Milam County

## MONDAY APRIL 10, 1939

There are many reasons why every voter in Milam county should inform himself as to all the facts before he votes in the prohibition election next Monday. In the first place only those portions of the county where the sale of alcoholic beverages is now legal will be affected by this election. We believe that you should

not only remember the bad effects caused by attempts to bring about prohibition in the past and what a miserable failure it was, but, as a citizen and tax payer you should inform yourself as to the revenue derived from the sale of alcoholic beverages in Milam county since they were legalized here. The records show that a

total of \$3,125.00 was paid to the state for license fees alone in Milam county during 1938. During the same period the county received \$1,562.50 and the three incorporated cities of Milam county received \$1,287.50. This, however, is only a small portion of the revenues derived from the sale of alcoholic beverages in Milam county.

Figures taken from sworn statements to the Liquor Control Board made by only four of the seven wholesale beer distributors serving Milam county show that state taxes amounting to \$8,431.73 were paid during 1938 on the beer sold by these four firms alone. The federal taxes paid by the same four firms amounted to \$33,726.92 for the same period. Figures are not available for the taxes paid on beer sold by the other distributors nor on the sale of whiskey and wine in the county. It is safe to assume that the figures given above can be doubled in order to arrive at the total amount of taxes paid during last year to the state and federal gov-

ernment. The figures given can be easily checked by any interested person from records of the State of Texas. Thus we see that prohibition would lose to the State of Texas and to Milam county a staggering sum of money which is badly needed at this time. The Texas Liquor Control Board announced recently that during 1938 there was collected from license fees alone by the cities and counties in Texas the sum of \$807,678.78. \$5,666,995.59 was collected by the State in taxes on alcoholic beverages. The federal tax on these items is about four times the amount of the State tax.

### How Will Business be Affected

In addition to the loss of these revenues in the event prohibition is permitted to carry in Milam county, the county will suffer in a more direct way. Those establishments now licensed by the state to sell alcoholic beverages would be forced to close their doors and go out of business. Over 250 persons now employed by these establishments would be thrown out of work and those dependent on them would be made to suffer. Your vote for prohibiting the sale of alcoholic beverages would result in the loss of many jobs which would have a direct effect on business generally throughout the county. Since Milam county is completely surrounded by wet territory

we are safe in predicting that many of our citizens would go to adjoining counties to transact their business.

Since February 1, 1938, the sale of alcoholic beverages has been legalized in a number of counties and cities in the State of Texas after a brief trial of prohibition. The change in sentiment in each of these instances was brought about by the businessmen and tax payers who realized that they had made a mistake in permitting so-called prohibition to carry.

To illustrate how quickly some of these counties realized their mistake, attention is called to the fact that Eastland Co., went dry in 1937, by more than 200 votes, then on Mar. 12,

1938, voted legalization by more than 200 votes. Palo Pinto Co., voted dry on Oct. 2, 1937, by a majority of 151, then on Feb. 22, 1938, voted legalization by a majority of 345. Titus County went dry on December 11, 1937, by 14 votes, then on March 5, 1938, voted for legalization by a majority of 737. On December 10, 1937, Howard County (Big Spring) voted to prohibit the sale of all alcoholic beverages by a majority of 118 votes. Exactly three months later an election to legalize the sale of wine and beer was carried by 695 votes. Let us not make the same mistake as these counties have.

These are but a few of the actual cases on record.

### How Does the Sale of Alcoholic Beverages Affect Old Age Pensions?

In May 1937, 127,769 aged citizens of Texas received pensions from the state. In May 1938 this number had been reduced to less than 112,000 according to a statement issued by the Texas Old Age Assistance Commission. Everyone in the county knows of many of our own old people who have been removed from the pension rolls and many others who should be receiving our pensions but are not doing so be-

cause state revenues have not been sufficient to pay them.

The state auditor's report shows that 50.3% of all the state's share of the money for old age pensions comes from the taxes and license fees derived from the sale of alcoholic beverages. Three-fourths of the total amount collected goes for this purpose and one-fourth to the available school fund.

The newspapers have repeatedly carried

statements to the effect that the present session of the Legislature has utterly failed to raise any more revenue for old age pensions, but on the other hand has been forced to borrow almost a million dollars to meet February and March payments. Your vote for prohibition would only serve to further hinder the payment of old age pensions since the money is needed now worse than ever before.

### WHAT IS THE REAL ISSUE?

We believe the real issue in this election can be boiled down to this question: SHALL the sale of alcoholic beverages in Milam County be regulated under the laws, or its sale go UN-REGULATED without the limitations of law?

DO YOU prefer the sale of alcoholic beverages under a strict legalized licensed system, with the safeguards of the law surrounding its sale, or do you prefer to return to unlicensed and unregulated sale by irresponsible and disreputable persons?

DO YOU prefer that the money derived from the taxes on alcoholic beverages go into the public treasury, to pay Old Age Pensions and the expenses of your SCHOOLS, or that it go into the pockets of racketeers and bootleggers?

DO YOU know that under the present new Texas Liquor Laws, a dealer's license may be revoked for any of the following reasons:

SELLING TO AN HABITUAL DRUNKARD.

SELLING TO A MINOR.

SELLING TO A PERSON VISIBLY INTOXICATED.

EMPLOYING ANYONE UNDER 18 YEARS OF AGE.

IN COUNTIES WHERE THOSE WHO BELIEVE IN TRUE TEMPERANCE LEND THEIR SUPPORT TO THE ENFORCEMENT OF THE LIQUOR LAWS, CONDITIONS ARE MUCH BETTER THAN IN COUNTIES WHERE THEIR GOOD INTENTIONS AND WELL-MEANING EFFORTS ARE DIRECTED TOWARD SO-CALLED "PROHIBITION"

*Business Men and Tax Payers  
Committee of Milam County*

PERMITTING ANY DISTURBANCE OR BREACH OF PEACE ON HIS PREMISES.

DO YOU Know that 1040 licenses have been cancelled and 746 suspended for one or more of the above reasons in 1938 and that the law compels the board to cancel the license of any operator immediately upon his conviction on a criminal case for violating the liquor laws?

DO YOU believe that a bootlegger in a back alley or behind drawn shades would have disposition to abide by any of these requirements. His only interest is "Cash on the Barrel Head."

It may be too much to hope that we can ever devise an entirely satisfactory plan for handling this problem, but we sincerely believe that the present system, if given a fair trial, will weed out most of the abuses, and promote real temperance. At any rate, conditions are improving under the new law above referred to. The Liquor Control Board is imposing more and more restrictions, and becoming more and more vigorous in enforcing observance. Let us insist that our public officials do their duty, then cooperate with them as good citizens should, but do not vote to bring back prohibition, with its companions, the bootlegger and the home brew maker, who pay no taxes and obey no laws.

### SPECIAL NOTICE!

No matter what the result of this election, the status of those precincts in Milam County, in which the sale of alcoholic beverages is now prohibited will remain unchanged, for instance, if the Milano, Gause, or Minerva precincts were to vote wet next Monday, they would still remain dry under the laws of Texas just as at present.

Although the election is county-wide, under the Constitution and laws of the State, it cannot legalize the sale of alcoholic beverages in any precinct, city, or town where same is now prohibited. If your city, town or precinct is dry now it will remain dry. Don't vote for prohibition for the entire county. If you do it will increase your tax bill and send business to other counties.
